Good quality factory directly sales admixture

Good quality factory directly sales admixture shows significant performance enhancements in various concrete mixtures. Structures made with our additive experience minimized structural loss, reinforced bonding and reduced crack propagation. This level of improvements in resistance to moisture absorption, gas permeability and acid attack will reshape what we expect from concrete.

Through advanced manufacturing, Good quality factory directly sales admixture delivers high-performance nano-materials for a global customer base in a wide range of industry applications. Good quality factory directly sales admixture is a High Range Water Reducing aqueous dispersant designed for use in concrete applications. It provides fluidity to concrete slurries at substantially reduced water content. Benefits include increased productivity, lower costs and improved concrete properties.

Performance

- A. Wide adaptation scope: not only used in cement-based materials, but also gypsum-based materials, strong adaptability to various kinds of organic additives, such as water-soluble polymer, dispersible polymer powders has little effect on this product.
- B. High water reducing rate: make the mortar water reducing rate of more than 30 %, greatly improving the fluidity of the mortar under the condition of same water content in mortar.
- C. Early strength and high strength
- D. High durability: Reduce mortar water-cement ratio, improve durability, reduce shrinkage and variations, reduce post-curing mortar shrinkage cracking.
- E. Green Environmental Product: does not produce pollution of the environment; in line with ISO14000 International Environmental Management Standard.

Service

1. Reply your inquiry in 24 working hours.
2. Experienced staffs answer all your questions in professional and fluent English.

Zibo Zhuoxing Enterprises Co., Ltd.

3. Special discount and protection of sales areas provided to your distributor.
4. The content packing particle size may be based on customer demand.
5. Have many supplying channels for each raw material, and competitive prices.
6. Keep our customer informed to price trend of each material in time.
7. Prompt shipment with professional shipping documents.
